

Contract Number N00104-06-D-Q492

Pentagon Information Technology Service Center and Department of the Interior Gov.Works Franchise Fund

On September 7, 2006, the Naval Inventory Control Point ADP Modernization Contracts Department (Code M0271.A4) announced the award of the Pentagon Information Technology Services Center (PITSC) contract. This is a multi-year Indefinite Delivery, Indefinite Quantity (IDIQ) contract for the acquisition of a wide variety of services for the Department of Defense.

Target Systems is a prime contractor for this contract. **decision/analysis partners LLC** is an integral member of the Target Systems PITSC team. As part of the team, decision/analysis partners LLC is able to offer a streamlined, expeditious way to place task order against the contract for its services to fulfill the Government's requirements.

The purpose of this contract is to provide technical, engineering and support services for the design, development, acquisition, integration, implementation, test, evaluation, documentation, and full life-cycle support of training/education systems and workforce certification programs for agencies of the Federal Government and foreign governments via their FMS Sponsor.

The services/support that may be provided by contractor personnel are as follows:

- Interactive Electronic Technical Manuals (IETMs)
- Electronic Classrooms
- Data Acquisition
- Computer Assisted Systems Development
- Independent Verification and Validation
- Technology Analysis
- Systems Engineering
- Hardware Design Engineering
- Software Design, Development, Prototyping, and Test Support
- Configuration Identification, Status Accounting and Auditing
- Research Support Services
- Engineering Change Proposal and Impact Analysis
- Software Modification Engineering Services and the Provision of Related Materials
- Hardware Modification Engineering Services and the Provision of Related Materials
- Production/Modification Test and Evaluation
- Trainer Relocation Services
- Modeling and Simulation (M&S)/Distributed Interactive Simulation (DIS) Services
- On-going Logistics and Reliability/Maintainability Analysis
- Instructor Familiarization and Training
- "On-line" Instructor Services
- Documentation Support Services
- Specialized Engineering Services
- Technical Libraries
- Acquisition

The Pentagon Information Technology Service Center provides one-stop acquisition problem solving for a broad base of clients from any branch or agency of the Federal Government. The PITSC/Gov.Works business partnership ensures an "on-target" solution and a best value to your acquisitions project.
