## ABOUT DECISION/ANALYSIS PARTNERS

decision/analysis partners is an independent management consulting firm based in Northern Virginia, serving governments, the private sector, and multi-lateral organizations. We offer strategy, operations management, market analysis and technology planning consulting services. We have led major change initiatives in the areas of mission-critical logistics, supply chain management, information and communications technologies and postal services.

Our projects are staffed by senior executives who provide key industry experience and insights, a hands-on approach, and rigorous and proven fact-based methodologies, as well as solid qualifications and a relentless focus on client and business objectives. A recent independent survey by Dunn and Bradstreet concluded that decision/analysis partners' clients are highly satisfied.
